Preparing the console window or GUI If it will be a while before your first trip then it is advisable to prepare the car window
Crucc 2.4 Car Radio Universal Code Calculator.zip psychologie beamer b Crucc 2.4 car radio universal code calculator. Does anyone know what code a car radio is set at? as I've had this problem for a long time and I keep changing the setting but nothing.

I have tried changing it to the same code as a previous model that I got in a salvage yard, the universal code that I can find all over the internet but nothing. Ive tried removing the radio as I have read many suggestions that it's the set up of the radio and not the car. When I search my car on the key finder it says "Radio code is invalid or invalid" I have a 08 83 peugeot 107 V6 2.2 and have just installed my Crucc 2.4 Car Radio Universal Code Calculator.zip psychologie beamer b and to test it I have got the code from my previous radio (number is DJ8NB) Might be wrong but it did work in my car, I have only just installed the radio today and it is the latest version. I am in the process of building my own dashboard (I would prefer that it be universal to fit a lot

of cars) but if you could give me the code for the radio I will enter it on the radio.
