"This is the best platformer experience that I've played on Android so far" - Casual App Review "It combines everything a good platform game should be...tough but fair, scary but not scaring." - Non Profit Dev "One of the best platformers I've played on android." - Gaming Cookout If you like Burn, Clown, Burn!, please take a second and hit the supportive button! Burn, Clown, Burn! Burn Clown Burn is a very honest and direct game. You play as a clown and must jump to collect the souls of the dead clowns. You must go through 50 basic levels in total...the score is not really important in this game, it is the sheer fun of the gameplay that counts. That is the reason why I try to make the game as fun as possible and all my previous games are like that. In this game I have made a complete content booster. It is called "VIPs Mode". There are 3 different modes to play with:- Excellent Mode with 150 levels- Ultra Mode with 200 levels- Unlockable Character Mode with 300 levels VIPs Mode will have upgradeable characters in future patches, and I will be adding to this "VIPs Mode" at least 5 extra characters with the new update...so it is my ode to fans...everyone has a special character they want to play with, so this will be added very soon. Highlights:- Gameplay is totally different when playing with a character.- Different gameplay modes.- Rewritten CGs.- Improved Game Graphics and more... Android users are getting a special "Extra" free DLC pack that is being released on the 8th of August in time for Halloween. The DLC is called "Son of Death's Door". This DLC pack adds a new ghost of clown and a new Nightmare mode. It also adds the "VIPs Mode" to the game for a small price. You can get
